Login Window

The image shows a 'Photographer Login' window with two sections. The top section has a dark blue header with the text 'Photographer Login'. Below the header are two input fields: 'User Name' and 'Password'. A dark blue 'Login' button is positioned below the 'Password' field. The bottom section has a light gray background and contains the text 'Forget Your Password?' followed by 'Enter Your UserId And Your Password Will Be E-Mailed To The Email Address On File'. Below this text is a 'User Id' input field and a dark blue 'Email My Passord' button. A gray callout box on the right contains the text 'Enter your User Name and Password' with two red arrows pointing to the 'User Name' and 'Password' input fields.

Please Choose From The Menu Above

Click on the Make Cards link to create & print Business Cards to hand out at your event.

Marketing Your Online Events

Event Business Cards

Instructions on how to create and print your event business cards are displayed at the top of your online layout tool.

Note!
Be sure you have business card stock on hand before printing – available at any office supply store or www.PaperDirect.com.

This tool allows you to create cards to pass out at an upcoming event.

Formatting The Text You can change the font and font color for the text on each line of of the card using the drop-down list next to each line(the first line is acutally two lines). The text you enter in the text boxes is automatically centered so no additional spacing is required. You can try different combinations and then click on the "view cards" button to see what it will look like.

Printer Settings In order for the cards to print properly you need the printer margin settings to the right as well as make the footer box is empty. To set your printer options go to the menu and choose *File* and then *Page Setup*. Once you have set your margins you can use *File* then *Print* to print out the page of cards. You can just set the number of copies depending on how many cards you wish to print. It is recommended you only print one page to make sure it prints how you want it before printing out multiple pages. Note-you may have to experiment with your margins to get the exact size needed.

Top = 0.5"
Left = 0.82"
Bottom = 0.55"
Right = 0.5"
